EDUCATION

KIET Group Of Institutions, Delhi-NCR <i>B.Tech in Computer Science</i>	2020-2024 <i>Percentage: 78.63</i>
Anand Bhawan School, Barabanki <i>Intermediate(ICSE)</i>	2018-2019 <i>Percentage: 77.75</i>
Anand Bhawan School, Barabanki <i>High School(ICSE)</i>	2016-2017 <i>Percentage: 75.6</i>

EXPERIENCE

- **OASIS INFOBYTE** | *Frontend Web Developer* Dec 2022 - Jan 2023
During my internship, I worked as a frontend web developer and successfully completed three projects - a functional calculator, a responsive website, and the crafting of a web-based to-do list application assigned by the company. These projects followed a comprehensive 15-day training session that equipped me with the necessary skills and knowledge. Through these projects, I gained valuable hands-on experience and enhanced my proficiency as a frontend developer.
- **IIPC KIET INTERN** | *Frontend Web Developer* July 2021 - Sep 2021
During this internship, I underwent 3-4 weeks of training as a frontend web developer. The purpose of this program was to enhance my knowledge and skills, enabling me to apply them in project development. As a result, I successfully created a fully responsive login web page using HTML, CSS, and JavaScript.

PROJECTS

- **Grievance Redressal System** | **HTML, CSS, JS, Bootstrap, PHP** May 2023 - Present
 - The objective of the project is to establish a structured and efficient mechanism for addressing and resolving complaints, concerns, or issues that individuals or groups may have. This system aims to promote transparency, accountability, and fairness while enhancing the overall well-being and satisfaction of members in society.
 - It provides a platform for expression, fairness, justice, and ensures the timely resolution of various problems, among other benefits.
- **The BookShelf** | **HTML, CSS, JavaScript, Bootstrap** Jun 2023 - Sep 2023
 - The BookShelf is a fully functional website for purchasing second hand books. Here, users can browse through a variety of books according to their standard, add them to their cart, and securely complete the checkout process.
 - The website also features a search function and user account management. The project incorporates the following key features: user authentication and authorization, a shopping cart system, and order placement functionality.
- **Random Password Generator** | **HTML, CSS, JavaScript, Bootstrap** Aug 2022 - Sep 2022
 - This tool assists in generating a robust password capable of protecting the account against various types of cyberattacks.
 - It creates random, strong passwords composed of a combination of letters, numbers, different cases, and symbols, resulting in an unpredictable string of characters that bears no resemblance to recognizable words or names.

CERTIFICATIONS

- Object Oriented Data Structures in C++ from Coursera
- HTML, CSS, and Javascript for Web Developers from Coursera
- Introduction to Front-end Development from Coursera

SKILLS

Languages: C, C++, HTML, CSS, JavaScript, Bootstrap, PHP, SQL
Libraries: C++ STL, Bootstrap, React.js
Databases: Relational Database
Developer Tools: GitHub, VS Code

ACHIEVEMENTS

- Declared Maths Olympiad Winner in school
- Awarded best student of the year in school
- Completed 100 days problem solving streak on GeeksForGeeks
